Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-8 are presented for examination on the merits.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on March 12, 2002, was received. Accordingly, the information disclosure statement is being considered by the Examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Rao et al, cited on enclosed PTO-892 Form.

Claims are drawn to isolated mouse neuron-restricted precursor cells derived from neural tubes and methods therefore.

Rao et al teach to isolated mouse neuron-restricted precursor cells derived from neural tubes and methods therefore. Note the abstract and col. 5, lines 40-45 and 63 and col. 6, lines 5-15 and col. 9, example 1.

The claims appear to be identical to the cited disclosure and are considered therefore, to be anticipated by the teachings therein.

Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Johe, cited on enclosed PTO-1449 Form.

Claims are drawn to isolated mouse cells or embryonic mouse stem cells.

Johe teaches to isolated mouse cells or embryonic mouse stem cells. See entire document.

The claims are identical to the cited disclosure and are therefore, considered to be anticipated by the teachings therein.

All claims fail to be patentably distinguishable over the state of the art discussed above and cited on the enclosed PTO-892 and/or PTO-1449. Therefore, the claims are properly rejected.

The remaining references listed on the enclosed PTO-892 and/or PTO-1449 are cited to further show the state of the art.

No claims are allowed.
